Aims and Scope

Immunology and Cell Biology is the official publication of the Australasian Society for Immunology and welcomes full papers or brief communications describing original research, methods or concepts in the broad fields of immunology and cell biology. Submission of theoretical articles in immunology and cell biology is strongly encouraged.

Editorial Correspondence

Manuscripts can be submitted to the Editor-in-Chief, Professor CR Parish, or one of the three Editors marked in bold above. All other editorial correspondence should be addressed to: Professor CR Parish, Editor-in-Chief, *Immunology and Cell Biology*, Division of Immunology and Cell Biology, The John Curtin School of Medical Research, Australian National University, PO Box 334, Canberra, ACT 2601, Australia. Tel: +61 2 6249 2604; fax: +61 2 6249 2595.

Subscriptions and Advertising Bookings

The Journal is published bimonthly and the 1999 subscription rates are: A$510.00 (Australasia) or US$410.00/A$665.00 (overseas). The Journal is despatched to subscribers outside Australia by TNT Mailfast.

All matters related to subscriptions, advertisement bookings, back issues, reprints, offprints and general enquiries should be sent to: Blackwell Science Asia, PO Box 378 (54 University St), Carlton South, Victoria 3053, Australia; email:<info@blacksci-asia.com.au>; facsimile: +61 3 9347 5001; telephone: +61 3 9347 0300.

Abstracting and Indexing Services

Immunology and Cell Biology is covered by *ADONIS, AIDS Information, BIOSIS Database, CAB Abstracts, Cambridge Scientific Abstracts, CancerLIT, Cancer Therapy of the Upper Gastrointestinal Tract, Chemical Abstracts Service, Current Awareness in Biological Sciences/Elsevier BIOBASE, Current Contents/Life Sciences, EMBASE/Excerpta Medica, Index Medicus, International Nursing Index, Journals@Ovid, MEDLINE, Reference Update, Research Alert, Science Citation Index, SciSearch, UnCover, and University Microfilms.*

Instructions to Authors

For details concerning the submission of papers to the Journal see the Notes to Contributors at the back of the Journal.

Copyright and Photocopying

©1999 Australasian Society for Immunology Inc. Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Blackwell Science Asia Pty Ltd for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of US$14.00 is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923, USA. This consent does not extend to other kinds of copying, such as copying for general distribution for advertising or promotional purposes, for creating new collective works or for resale. Special requests should be addressed to the Publisher. 0818–9641/99 $14.00.

VOLUME 77, ISSUE 1, FEBRUARY 1999

Review Article

The role of CTLA-4 in the regulation of T cell immune responses
KD McCoy and G Le Gros 1

Research Articles

Expression of apoptotic regulatory molecules in renal cell carcinoma: Elevated expression of Fas ligand
C Olive, C Cheung, D Nicol and MC Falk 11

Isolation and characterization of monoclonal antibodies directed against murine FRP-1/CD98/4F2 heavy chain: Murine FRP-1 is an alloantigen and amino acid change at 129 (P←→R) is related to the alloantigenicity
H Tsumura, M Kawano, M Tajima, T Kusaura, Y Kozuka, S Yoshimura, H Komada, M Tsurudome, M Nishio, S Kusugawa, K Shimura and Y Ito 19

Physiological effects and adjuvanticity of recombinant brushtail possum TNF-α
DN Wedlock, LP Goh, AR McCarthy, RG Midwinter, NA Parlane and BM Buddle 28

Western blot analysis of bile or intestinal fluid from patients with septic shock or systemic inflammatory response syndrome, using antibodies to TNF-α, IL-1α and IL-1β
IL Belov, V Meher-Homji, V Putaswamy and R Miller 34

Special Feature: Immune-Mediated Apoptosis

Signalling by CD95 and TNF receptors: Not only life and death
C Magnusson and DL Vaux 41

Regulation of pro-apoptotic leucocyte granule serine proteinases by intracellular serpins
PI Bird 47

Targeted disruption of caspase genes in mice: What they tell us about the functions of individual caspases in apoptosis
PA Colussi and S Kumar 58

NK cells and apoptosis
HS Warren and MJ Smyth 64

Anti-viral strategies of cytotoxic T lymphocytes are manifested through a variety of granule-bound pathways of apoptosis induction
KM Edwards, JE Davis, KA Browne, VR Sutton and JA Trapani 76

Does HIV cause depletion of CD4$^+$ T cells *in vivo* by the induction of apoptosis?
A Jaworowski and SM Crowe 90

Theoretical Article

MHC multimerization, antigen expression and the induction of APC amnesia in the developing immune response
RA Lake, BWS Robinson and JD Hayball 99

Book Reviews 105

VOLUME 77, ISSUE 2, APRIL 1999

Research Articles

Accessible xenografts of human synovium in the subcutaneous tissues of the ears of SCID mice
SM Proudman, LG Cleland, M Fusco and G Mayrhofer 109

The effectiveness of different rat IgG subclasses as IgE-blocking antibodies in the rat basophil leukaemia cell model
JR Philips, W Brouwer, M Edwards, S Mahler, J Ruhno and AM Collins 121

Natural cytotoxic and antibody-dependent cellular cytotoxic activity of cells in the decidua basales and metrial glands of pseudopregnant rats with deciduomata
S Peel and IJ Stewart 127

The role of IL-12 in the control of MCMV is fundamentally different in mice with a retroviral immunodeficiency syndrome (MAIDS)
CD Peacock and P Price 131

Quantitative analysis of cytokine gene expression in the liver
M Takahashi, T Nishimura and K Yokomuro 139

Suppressive effects of serum on the LPS-induced production of nitric oxide and TNF-α by a macrophage-like cell line, WEHI-3, are dependent on the structure of polysaccharide chains in LPS
K Ohki, F Amano, S Yamamoto and O Kohashi 143

Immortalized cell lines derived from mice lacking both type I and type II IFN receptors unify some functions of immature and mature dendritic cells
R Nunez, P Grob, S Baumann, A Zuniga, M Ackermann and M Suter 153

Brief Communication

TNF-α production in the cornea in response to *Pseudomonas aeruginosa* challenge
N Cole, S Bao, M Willcox and AJ Husband 164

Highlights of the 28th Annual Conference of the Australasian Society for Immunology

Burnet Oration: Living in the Burnet lineage
PC Doherty 167

The discovery of T cell help for B cell antibody formation: A perspective from the 30th anniversary of this discovery
CA Janeway Jr 177

The coming of age of tumour immunotherapy
G Ada 180

Visualizing lymphocyte recognition
C Wülfing, Y-H Chien and MM Davis 186

Osteoprotegerin ligand: A common link between osteoclastogenesis, lymph node formation and lymphocyte development
Y-Y Kong, WJ Boyle and JM Penninger 188

Book Reviews 194

VOLUME 77, ISSUE 3, JUNE 1999

Special Issue: Sixth Annual Curtin Conference on Apoptosis

Involvement of ribosomal proteins in regulating cell growth and apoptosis: Translational modulation or recruitment for extraribosomal activity?
H Naora and H Naora 197

Perforin-dependent nuclear targeting of granzymes: A central role in the nuclear events of granule-exocytosis-mediated apoptosis?
EJ Blink, JA Trapani and DA Jans 206

Activation-induced apoptosis of autoreactive and alloreactive T lymphocytes in the target organ as a major mechanism of tolerance
MP Pender 216

Exposure of *N*-acetylglucosamine decreases early in dexamethasone-induced apoptosis in thymocytes, demonstrated by flow cytometry using wheat germ agglutinin and pokeweed mitogen
JP Beaver and CL Stoneman 224

Viral modulation of the host response via crmA/SPI-2 expression
S Turner, B Kenshole and J Ruby 236

Rapamycin inhibits didemnin B-induced apoptosis in human HL-60 cells: Evidence for the possible involvement of FK506-binding protein 25
KL Johnson and A Lawen 242

Elevated plasminogen receptor expression occurs as a degradative phase event in cellular apoptosis
MJ O'Mullane and MS Baker 249

The IGF axis and programmed cell death
AJ Butt, SM Firth and RC Baxter 256

Molecular mechanisms of ionizing radiation-induced apoptosis
D Watters 263

Regulation of caspase activation and apoptosis by cellular zinc fluxes and zinc deprivation: A review
F Chai, AQ Truong-Tran, LH Ho and PD Zalewski 272

Bcl-2 genes and growth factors in the pathology of ischaemic acute renal failure
G Gobé, X-J Zhang, L Cuttle, B Pat, D Willgoss, J Hancock, R Barnard and Z Endre 279

Corrigendum 287

Abstracts

Abstracts of the Annual Scientific Meeting of the Transplantation Society of Australia and New Zealand A1

VOLUME 77, ISSUE 4, AUGUST 1999

Review Articles

Interactions of HIV-1 with antigen-presenting cells
T Hewson, N Lone, M Moore and S Howie 289

The role of B7 costimulation in T-cell immunity
NL Harris and F Ronchese 304

Cell death induced by the Fas/FasL pathway and its role in pathology
P Waring and A Müllbacher 312

Research Articles

Inhibition of naïve class I-restricted T cells by altered peptide ligands
C Koniaras, FR Carbone, WR Heath and AM Lew 318

Use of recombinant viruses to deliver cytokines influencing the course of experimental bacterial infection
C Cheers, M Janas, A Ramsay and I Ramshaw 324

Characterization of a bioassay for detection of recombinant and native ovine interleukin-5
K Bosward, DL Emery, PW McWaters, AJ Husband and T Bendixsen 331

Mouse M290 is the functional homologue of the human mucosal lymphocyte integrin HML-1: Antagonism between the integrin ligands E-cadherin and RGD tripeptide
RW Berg, YI Yang, K Lehnert and GW Krissansen 337

Modulation of immune function by a modified bovine whey protein concentrate
ML Cross and HS Gill 345

Salivary IgA subclasses and infection risk in elite swimmers
M Gleeson, ST Hall, WA McDonald, AJ Flanagan and RL Clancy 351

Expression and activation of RAS and mitogen-activated kinases in macrophages treated *in vitro* with cisplatin: Regulation by kinases, phosphatases and Ca^{2+}/calmodulin
RAK Singh and A Sodhi 356

Theoretical Article

Mucosa-associated lymphoid tissues as sites for uptake, carriage and excretion of tubercle bacilli and other pathogenic mycobacteria
IW Lugton 364

Book Reviews 373

VOLUME 77, ISSUE 5, OCTOBER 1999

Research Articles

Cholera toxin-induced alteration of the phenotype and behaviour of an ovarian carcinoma cell line SR8
X Han, AJ Papadopoulos, T Jones, O Devaja and KS Raju 377

Preproenkephalin is a Th2 cytokine, but is not required for Th2 differentiation *in vitro*
S Hook, M Camberis, M Prout, M Konig, A Zimmer, G Van Heeke and G Le Gros 385

Random length assortment of human and mouse T cell receptors for antigen α and β chain CDR3
G Johnson and TT Wu 391

Effect of molecular weight and β-(1,6) linkages on priming of macrophage function in mice by (1,3)-β-D-glucan
JA Cleary, GE Kelly and AJ Husband 395

Special Feature: Dendritic Cells

Dendritic cells at the end of the Millenium
M Rescigno, F Granucci and P Ricciardi-Castagnoli 404

Dendritic cell origins: Puzzles and paradoxes
S Vandenabeele and L Wu 411

Dendritic cells: The driving force behind autoimmunity in rheumatoid arthritis?
AR Pettit and R Thomas 420

Regulation of T helper cell differentiation by respiratory tract dendritic cells
PA Stumbles 428

Long-term stroma-dependent cultures are a consistent source of immunostimulatory dendritic cells
HC O'Neill, K Ni and H Wilson 434

Monocyte-derived dendritic cells as a model for the study of HIV-1 infection: Productive infection and phenotypic changes during culture in human serum
DFJ Mallon, A Buck, JC Reece, SM Crowe and PU Cameron 442

Dendritic cell immunotherapy for cancer: Application to low grade lymphoma and multiple myeloma
DNJ Hart and GR Hill 451

Langerhans' cell histiocytosis is caused by dysregulation of the E-cadherin–β-catenin cascade: A hypothesis
PJM Leenen and RM Egeler 460

Book Reviews 468

VOLUME 77, ISSUE 6, DECEMBER 1999

ReviewArticle

Chemokines and chemokine receptors in infectious diseases
S Mahalingam and G Karupiah 469

Research Articles

Stimulation of TNF-α and IL-1β and nitrite release from mouse cultured spleen cells and lavaged peritoneal cells by mastoparan M
T-M Wu, T-C Chou, Y-A Ding and M-L Li 476

Phagotopes derived by antibody screening of phage-displayed random peptide libraries vary in reactivity: Studies using an exemplary monoclonal antibody, CII-C1, to type II collagen
JM Davies, MJ Rowley and IR Mackay 483

Expression of interleukin-1 receptors in the later period of foetal thymic organ culture and during suspension culture of thymocytes from aged mice
S-H Oh and K Kim 491

Special Feature: Carboxyfluorescein diacetate succinimidyl ester: An important new technology for tracking lymphocyte migration and proliferation

Fluorescent dyes for lymphocyte migration and proliferation studies
CR Parish 499

Divided we stand: Tracking cell proliferation with carboxyfluorescein diacetate succinimidyl ester
AB Lyons 509

Quantitative analysis of lymphocyte differentiation and proliferation *in vitro* using carboxyfluorescein diacetate succinimidyl ester
J Hasbold, AV Gett, JS Rush, E Deenick, D Avery, J Jun and PD Hodgkin 516

Analysis of growth kinetics by division tracking
RE Nordon, M Nakamura, C Ramirez and R Odell 523

Carboxyfluorescein diacetate succinimidyl ester and the virgin lymphocyte: A marriage made in heaven
B Fazekas de St Groth, AL Smith, W-P Koh, L Girgis, MC Cook and P Bertolino 530

The use of carboxyfluorescein diacetate succinimidyl ester to determine the site, duration and cell type responsible for antigen presentation *in vivo*
J Mintern, M Li, GM Davey, E Blanas, C Kurts, FR Carbone and WR Heath 539

Using carboxyfluorescein diacetate succinimidyl ester to monitor human NK cell division: Analysis of the effect of activating and inhibitory class I MHC receptors
HS Warren 544

Cross-presentation of tumour antigens: Evaluation of threshold, duration, distribution and regulation
BWS Robinson, RA Lake, DJ Nelson, BA Scott and AL Marzo 552

Carboxyfluorescein diacetate succinimidyl ester-based proliferative assays for assessment of T cell function in the diagnostic laboratory
DA Fulcher and SWJ Wong 559
